

# the opening ceremony of the electric vehicle energy storage industrial park

---

US auto giant Tesla held a ceremony on Tuesday to mark the launch of the production of its Megapack energy storage plant in Shanghai's Lingang New Area, the company told the Global Times on Tuesday, describing the development as a new example of "Tesla speed" in China.

US auto giant Tesla held a ceremony on Tuesday to mark the launch of the production of its Megapack energy storage plant in Shanghai's Lingang New Area, the company told the Global Times on Tuesday, describing the development as a new example of "Tesla speed" in China, following the success of its Liyang, a county-level city under Changzhou, recently hosted the signing ceremony for a pioneering energy storage industrial park project. The initiative is a collaboration between the Liyang Economic Development Zone and three leading companies: East China Xinhua Energy Investment Co., Ltd. The Grand Opening Ceremony of Camel Group's New Energy and Low-carbon Industrial Park was held on July 28th, in Xiangyang. An annual capacity of 12 million units of low-voltage lithium battery production base and a 10GWh energy storage lithium battery production base will be built, with a total investment of 2 billion yuan.

On June 24, China Energy Construction Gezhouba Second Company and its partners jointly unveiled the groundbreaking ceremony and officially launched the construction of the Yibin Energy Storage Industrial Park Science and Technology Innovation Center project. The Yibin Energy Storage and Electric Vehicle Industrial Park in the Wuhan Economic & Technological Development Zone (WEDZ) is making significant strides in next-generation automotive, new energy, new materials, and intelligent manufacturing industries. Six months ago, Lotus NYO, based in the Wuhan Economic & Technological Development Zone, held a ceremony on Tuesday to mark the production launch of its Megapack energy storage plant in Shanghai's Lingang New Area, meaning Tesla's China operations has entered a new phase, the Global Times has learned. The energy storage Megafactory is the first of its kind built by Tesla outside China.

The opening ceremony of the Electric Vehicle Energy Storage Industrial Park At the launch ceremony of the industrial park, some companies inked settlement and strategic cooperation agreements with the park, aiming to work together to promote development of the new energy storage industry. Tesla launches production at Shanghai Megafactory, highlighting US auto giant Tesla held a ceremony on Tuesday to mark the launch of the production of its Megapack energy storage plant in Shanghai's Lingang New Area, the company told the Global Times on Tuesday, describing the development as a new example of "Tesla speed" in China.

20 optical storage and charging projects launched Twenty integrated optical storage and charging projects were launched Nov. 3 at a ceremony at the New Energy Vehicle Industrial Park in Pingshan. These projects will be in Changzhou attracts 3 billion yuan investment for pioneering energy storage industrial park project. The industrial park is set to become a hub for enterprises across the energy storage value chain, focusing on essential components such as vanadium redox flow battery (VRFB) products.

Zhiguang Electric Kicks Off with a Grant Ceremony On February 6, the ninth day of the first lunar month, Guangzhou Zhiguang Electric Co., Ltd. (short as Zhiguang Electric) held its New Year Opening Ceremony in the Zhiguang Electric Industrial Park. The Grand Opening Ceremony of Camel Group's New Energy and Low-carbon Industrial Park was held on July 28th, in Xiangyang. It will build an intelligent green factory with high-tech, high-intelligence manufacturing, and high environmental standards, covering photovoltaic, energy storage, and electric vehicle energy storage. The opening ceremony of the electric vehicle energy storage industrial park As the photovoltaic (PV) industry continues to evolve,
